## Galleria Vik Milano (Milano, Italy)

Ensnconced within the historical landmark of Galleria Vittorio Emanuele II, a colossal indoor atrium in the heart of Milan packing every sybaritic Italian brand under the sun, Galleria Vik Milano combines Italy's rich artistic history with contemporary modern designs for which the city is most known. Each guestroom has a unique art experience: Room 509 by Andrea Zucchi fosters nostalgia and melancholic orientalism through a ballpoint pen drawing, where he depicts 19th-century scenes of Japan, India, and Egypt. In room 219, artist Tomoko Nagao used a stencil technique to create a large Medusa head reimagined with a pop key element.
