September 2024 #2

Full Moon Horseback Ride

A Signature Experience at **ESTANCIA VIK**

As the full moon rises over the Uruguayan countryside, Estancia Vik transforms into a canvas of natural beauty. One of our most celebrated experiences, the Full Moon Horseback Ride, invites guests to embark on a magical journey across the pampas, led by local gauchos who know the land intimately.

Beginning at twilight, the ride winds through vast fields, riverbanks, and woodlands, with the landscape glowing under the soft moonlight. It's a true immersion into the heart of nature, where silence is only interrupted by the rhythmic trot of the horses and the whisper of the wind. Afterward, guests are welcomed back with an authentic Uruguayan Asado under the stars, savouring the warmth of the fire and the richness of local flavours.

This signature experience, available throughout the season from October 11th to March 2024, is part of the **Vik José Ignacio Ultimate Experience Guide**. A magical journey not to be missed!
