## THE VERY BEST HOTEL BATHTUBS AND BATHROOMS IN THE WORLD

Updated: January 20, 2023 | by Travel Curator Editors

Prepare to submerge in style. Voluptuaries from Cleopatra to Nero to King Louis XIV claimed bath time as a symbol of their right to repose. Today, we call that self care! Indeed an extravagant bathtub at an exquisite hotel or resort surely epitomizes the ultimate call to luxury. Whether set outdoors in a private nook, facing a window with nonpareil views, or hidden in a marble haven behind a locked door, a dream bathtub might very well change your life.

### VIK CHILE, CHILE

If winemaking is an art (we think it is) then it's no surprise that winery and hotel [Vik Chile](#), set in the wine country amid 11,000 acres of valleys and vineyards and boasting 360-degree views of the Andes Mountains, takes its winemaking masterwork a step further with design-centric guest suites designed by renowned artists, as commissioned by the owners. Edgy and deliciously soul stirring, the hotel's aesthetics both contrast and complement the surrounding outdoors. After wine tasting and athletic pursuits, imagine submerging in a suspended, hammock-style, vessel bathtub in your sleek VIK Suite. Since the tub occupies a prime viewing spot in front of floor-to-ceiling windows, a soak here feels like drinking in the landscape. (Make that "drinking in" part literal with an accompanying glass of wine.)
